

AARON GERTLER

UI/UX DESIGNER & FRONTEND DEVELOPER

ABOUT

My career has been a deliberate journey from design toward the engineering side of the table, and I've loved every step of it. These days, I'm as comfortable architecting a design system in Figma as I am implementing it in React, with a deepening practice in AI tooling and automation that has opened up many interesting possibilities. At my best, I'm the person who bridges the room. Someone who designers and developers both feel understood by, and who genuinely believes the best products come from those two worlds staying in close conversation.

EXPERIENCE

INDEPENDENT DESIGN & DEVELOPMENT CONSULTANT

Freelance | Nashville, TN (remote)
2016–Current

- Provide UI/UX design, frontend development, and branding consulting to clients across industries, including developing the full brand identity for a wellness and aesthetics practice from concept through delivery.
- Design and build AI-powered automation workflows that connect real-time event processing, intelligent notifications, and content pipelines, putting emerging tools to practical use.
- Deepen infrastructure and deployment fluency through self-directed work in Docker, n8n workflow automation, and self-hosted service orchestration, expanding my understanding of the systems that production interfaces live inside.

SENIOR ASSOCIATE DIGITAL STRATEGIST

Throughline, Inc. | Washington, D.C. (remote)
2023–2025

- Architected NimbleUI, a custom design system combining Ant Design and Material UI for the v3 release of Throughline's NimbleStory platform, standardizing visual and interactive interfaces across the full product suite.
- Built a Progressive Web App for the Department of Defense's DWFP program, enabling pest management professionals to search a database of 16,000+ products in low-connectivity field environments using IndexedDB for full offline functionality.

Anthropic/Claude API, n8n

DESIGN SKILLS

Design System Architecture

Component Documentation

Prototyping & Wireframing

Branding & Identity

Journey Mapping

User Testing

Copywriting

DESIGN TOOLS

Figma

Adobe Creative Cloud

AARON GERTLER

UI/UX DESIGNER & FRONTEND DEVELOPER

ASSOCIATE SOFTWARE ENGINEER

CoStar Group (STR) | Hendersonville, TN
2022–2023

- Built dashboard interfaces that delivered the core product experience, giving hospitality businesses actionable competitive intelligence derived from thousands of properties, while keeping underlying sensitive data fully protected. The entire platform's value proposition lives in that balance.
- Worked within a React/TypeScript component library using Apollo GraphQL and Redux for state and data management, with LogRocket for user journey tracking and iterative UX improvement.

UI/UX FRONTEND ENGINEER

XPressPark | Nashville, TN (Remote)
2021–2022

- Served as the sole designer on a two-person frontend team, owning the full design surface of a first-generation parking-as-a-service platform, from brand assets and high-fidelity mockups in Figma and Adobe CC through to implementation.
- Built and maintained the product design system in Storybook using TypeScript, React, and Tailwind, establishing a consistent visual and interactive language across the platform from the ground up.

UI/UX DESIGNER & FRONTEND DEVELOPER (APPRENTICESHIP)

Nashville Software School | Nashville, TN (Remote)
2020–2021

- Completed an intensive full-time frontend development and UI/UX design program, making a deliberate pivot from multimedia design into engineering. Built individual and team projects across React, JavaScript, Node.js, and CSS, establishing the technical foundation that's carried through every role since.

MULTIMEDIA DESIGNER

KHS America, Inc. | Nashville, TN
2014–2020

- Managed design and creative output across 20 musical instrument brands, spanning print, digital, web, photography, and video, building the multimedia foundation that informs how I approach design at every scale.

EDUCATION

UI/UX Design & Frontend Development
Nashville Software School

Master of Arts
Advertising & PR
The University of Alabama

Bachelor of Arts
Visual Communication
The University of Alabama

ACTIVITIES & AWARDS

Board Member
AIGA Nashville
2012–2022

Oakley Society (Mentor)
The University of Alabama
